Career Objective

Front-End Developer with hands-on experience building responsive, user-friendly web applications using HTML, CSS, JavaScript, and React, with working knowledge of UI/UX principles and REST APIs. Trained through the DEPI internship and university projects, including e-commerce sites and web applications, with solid version control practice using Git and GitHub. Looking to contribute to real-world front-end projects and grow as a professional developer.

Work Experience

Programming & Web Development Instructor | Technological Child University (CTU), Egypt

Jul 2026 – Present (Part-time)

- Delivered practical programming and web development training sessions, explaining core concepts clearly to students.
- Guided students through hands-on activities and projects, supporting them in solving technical problems independently.
- Built strong presentation, classroom management, and collaboration skills while managing a full training session.

Education

Bachelor of Information Technology – Software Engineering | Oct 2023 – Present

Borg Al Arab Technological University, Alexandria, Egypt

- Specializing in Software Engineering; GPA: 3.80 / 4.00
- Coursework in software development, web development, programming, databases, and software engineering principles.

Internships

Front-End Developer Intern | Digital Egypt Pioneers Initiative (DEPI)

Jul 2026 – Present (Part-time)

- Built user-friendly web interfaces using HTML, CSS, JavaScript, and React, applying UI/UX and responsive design principles in a structured training program.
- Applied modern front-end development practices and consumed REST APIs while collaborating with peers on practical team projects.
- Strengthened time management and professional workplace collaboration skills through structured training assignments.

Front-End Developer Trainee | Borg El Arab Technological University, Alexandria, Egypt

Jul 2024

- Completed practical training in front-end development, building interfaces with HTML, CSS, and JavaScript for cross-device compatibility.
- Developed and improved web interfaces through hands-on projects, applying UI/UX and responsive design principles.
